8. REVIEW OF GROUP PERFORMANCE

Second Quarter and Half Year

Group revenue in the second quarter and first half year was higher by 2% and 1% at \$50.2 million and \$98.4 million respectively compared to the corresponding period in 2015. This was due mainly to higher revenue from Data Centre division, partly offset by lower revenue from Logistics division.

Operating profit for the second quarter and first half year was higher by 79% and 37% at \$8.3 million and \$15.0 million respectively due largely to higher contribution from Data Centre division. The increase was partly offset by lower contribution from Logistics division and lower dilution gain on investment in associated companies.

Profit before taxation for the second quarter and first half year of \$25.2 million and \$44.9 million increased by \$4.2 million and \$2.1 million respectively due mainly to higher operating profits, partly offset by higher net interest expense.

After taking into account higher taxation and higher non-controlling interests, the Group's net profit attributable to shareholders for the second quarter and first half year was higher by \$2.9 million and \$0.5 million at \$18.8 million and \$32.1 million respectively.

9. VARIANCE FROM FORECAST STATEMENT

No forecast for the half year ended 30 June 2016 was previously provided.

10. PROSPECTS

The slowdown in China and Southeast Asia continue to pose challenges to the Logistics Division's performance. Occupancy in Singapore logistics facilities were slightly affected by the recent slowdown in domestic retail trade and weaker exports volume, but remained healthy in Southeast Asia. In China, Tianjin Eco-city distribution centre is in the process of system commissioning and testing, while progress in the development of the Lu'an Food Logistics Park was hampered by the recent severe wet weather which may push the startup to late in the year or early next year. The Division remains focused on building sales pipelines in Southeast Asia and China, and improving productivity.

The Data Centre Division marked its entry into Hong Kong through a collaboration with PCCW Global, a Hong Kong's premier telecommunications service provider, to co-develop and market an international carrier exchange which offers data centre co-location and connectivity-related managed services to facilitate interconnects. Keppel DC Singapore 3* (T27) has been fully committed since earlier this year. The development of Keppel DC Singapore 4* (T20) is progressing according to plan for completion by early 2017.

On 1st July 2016, the Group completed the sale of 50% of the shares in Keppel DC REIT Management to Keppel Capital for a cash consideration of S\$38 million. Following the disposal, Keppel DC REIT Management has ceased to be a subsidiary and will remain as an associated company. The Group, through its 70% subsidiary, Keppel Data Centres Holding, will be collaborating with Alpha Investment Partners, a wholly-owned subsidiary of Keppel Capital, on a data centre fund (DC Fund) to fund development of up to about US\$1 billion worth of data centre projects. As development projects are capital intensive, the DC Fund will enable the Division to seize more opportunities to quickly expand the pipeline of quality data centres and cement its position as a premier developer and operator of data centres in its targeted markets in Asia Pacific and Europe.

* As part of joint marketing efforts, the colocation assets within Keppel T&T's data centre division and Keppel DC REIT have been renamed to streamline the naming convention and strengthen collective branding.

Under Keppel DC REIT's portfolio, Keppel Digihub (S25) and Keppel Datahub 1 (T25) in Singapore will be renamed to Keppel DC Singapore 1 and Keppel DC Singapore 2 respectively while Citadel 100 Data Centre in Dublin, Ireland will be renamed to Keppel DC Dublin 1. Keppel T&T's Keppel Datahub 2 (T27) and Keppel Datahub 3 (T20) in Singapore will be renamed to Keppel DC Singapore 3 and Keppel DC Singapore 4 respectively. Data centres on double- and triple-net leases will not be affected by the renaming exercise.

13. SEGMENT ANALYSIS (cont'd)

Notes:

- (a) The Group is organised into business units based on their products and services, and has three reportable operating segments namely Logistics, Data Centre and Investments. The Logistics segment provides integrated logistics port operations, third-party logistics services, supply chain solutions, warehousing, distribution, container storage and repairs, and freight forwarding services. The Data Centre segment provides data centre co-location services, business continuity, disaster recovery, facility management and REIT management services. The Investments segment is the investment holding arm for various entities not within the Logistics and Data Centre segments.
- (b) Pricing of inter-segment sales is at fair market value.
- (c) Segment assets and liabilities are those used in the operation of each segment.
- (d) Other than Singapore and China, no single country accounted for 10% or more of the Group's revenue for the half year ended 30 June 2016 and 30 June 2015.

14. REVIEW OF SEGMENT PERFORMANCE

Logistics Division's revenue of \$71.6 million decreased by \$6.4 million compared to the same period last year due to lower warehousing and port operations revenue. Operating profit decreased by \$1.6 million to \$6.3 million due largely to lower revenue and absence of gain on disposal of fixed assets. Profit before taxation of \$5.5 million decreased by \$2.3 million due to lower operating profit, lower share of results of associated companies and higher interest expense. After taking into account higher taxation and lower non-controlling interests, net profit attributable to shareholders was lower at \$2.7 million.

Data Centre Division's revenue of \$26.9 million was \$7.7 million higher compared to the same period last year due largely to higher co-location service income in Keppel DC Singapore 3 (T27) and Keppel Almere. Consequently, operating profit increased by 113% to \$14.6 million. Profit before taxation of \$22.7 million increased by \$7.6 million due to higher operating profit and share of results of an associated company, partly offset by higher interest expense. Net profit attributable to shareholders was higher by \$5.4 million at \$17.4 million after taking into account higher taxation and non-controlling interests.

Investments Division's profit before taxation of \$16.7 million decreased by \$3.2 million compared to the same period last year due to lower contribution from associated companies and lower dilution gain on investment in associated companies. Consequently, net profit attributable to shareholders was lower at \$12.1 million.
