Spreading cheer

As a responsible corporate citizen, Keppel strives to nurture communities wherever it operates.

On 7 April 2017, 34 volunteers from Keppel Land China Tianjin Project Company, Keppel Logistics (Tianjin Eco-City) and New Area Sino-Singapore Outsourcing Service visited the Sunshine Welfare Home in Tianjin Binhai New Area (TBNA) to bring warmth and cheer to

more than 80 children with disabilities.

Led by Mr Lee Wei Ren, Project Head, the volunteers engaged the children in activities such as making plasticine figures and origami, and playing interactive games.

After an entire day of fun and learning, the children were treated to a sumptuous meal of steamed dumplings made by the volunteers.

"Seeing how the children wolfed down our dumplings and looked at us with happiness really makes all the

effort worthwhile," shared Teng Yunfei, Administrative Clerk of Keppel Land China Tianjin. **keppelite**
